

ENVIRONMENTAL SCIENCE

QQI LEVEL 5

ENVIRONMENTAL SCIENCE

Do you dream of a career where you can contribute to a sustainable future? LOETB Abbeyleix offers you the opportunity to turn your passion into a profession with our QQI Level 5 Environmental Science course where you'll learn from experienced instructors and engage in hands-on practical work.

This dynamic programme provides a solid foundation in the core principles of science, equipping you with the knowledge and practical skills needed to thrive in this vital and growing field.

Whether you're a recent school leaver, returning to education, or seeking a career change, our course offers a pathway to exciting opportunities in employment or further study.

Learners may be eligible to apply for a SUSI grant or a Back to Education Allowance. Funding supports may be available for jobseekers and others getting certain social welfare payments on all full-time courses.

Please contact the centre for further information.

Who should apply?

This course is suitable for learners who wish to pursue a career or further learning in science. The mathematics element allows students to bring their levels of proficiency in the subject up to the standard required for their intended third level course.

Students will also have the option to study other modules along with science allowing them to tailor their qualification for entry to their desired course or area of employment.

What will I study?

Modules Include*:

- Laboratory Skills • Biology • Mathematics
- Chemistry • Soil Science • Environmental Studies
- Work Experience • Biodiversity & The Natural Environment • Communications.

*Subject to change

Optional: • Safety and Health at Work • Clean Room Operations

Progression Options

There are progression options in a wide range of areas including Agriculture, Geosciences, Pharmaceutical, Environmental, Ecology, Forestry, Education, Climate, Brewing, Food Science, as well as Laboratory Technician programmes in a range of HEI's and colleges around the country.

Learners who have satisfied the criteria set by the CAO process may progress to third level education, and may secure a place in the National and Technological Universities on various Degree Programmes.
